

- New website header options
 - New menu format options including mega-menu dropdowns
 - Identity bar color options
- The Cornerstone visual builder released a large update to the graphic user interface
- New visual updates
 - News and Media Coverage feeds have been redesigned
 - Footer design update
 - The Viterbi IT site has been redesigned for ease of use
- Website Upkeep content update strategy and link checks
- Open Discussion

New Header Options

Why

- To have fewer dependencies on scripts and files within our theme
- Lessen conflict in our WordPress -> Theme -> Visual Builder software stack
- To give users more choices in how they want to customize their menu and site navigation

Dropdown Options

Image and Text

Plain imagery with text

New Footer Redesign

The Viterbi IT website has been redesigned for ease of use

We encourage our users to utilize our website for information.

Broken Links

The web team sends each department a monthly broken links report, and we encourage our users to review the report to make changes across their website to ensure there are no dysfunctional links.

Content Review

We encourage our users to consistently review their website to ensure information is up-to-date.

Never hesitate

The web team is *always* available to assist. Never hesitate to reach out to us through our ticketing system for website administrating assistance.

How to reach out

- Submit a ticket through myViterbi
- Email viterbiservicedesk.web@usc.edu
